KELBA KCB-E-20 - Electronic Baby Scale

KELBA's new KCB-E-20 electronic baby scale is designed with advanced technology for precision weighing of new born and growing babies. It is portable and light weight at only 3.2kg net weight and can be used in Homes, Hospitals, Doctors surgery's and Baby health clinics etc. It's low profile and large foot print ensures safety and stability. The KELBA baby scale is equipped with movement compensation technology, essential to eliminate involuntary movement caused by the baby and built-in tape measure for accurate weighing.

This scale is not ARTG Listed/ TGA Registered.

Kelba Electronic Baby Scale
